

EDUCATIONAL QUALIFICATIONS

Koneru Lakshmaiah Educational Foundation, Guntur Bachelor of Technology in Computer Science and Engineering (Honors)	Sep 2021 - Jun 2025 CGPA: 8.65
Sri Gowthami Junior College Board of Intermediate Education, Andhra Pradesh (BIEAP)	Jun 2019 - May 2021 CGPA: 8.96

CERTIFICATIONS

CEH Certification (CEH v12) Ethical Hacking [Link]	(Valid till feb 2028)
AWS Certified Cloud Practitioner [Link]	(Valid till Jul 2027)
Juniper Networks Certified Associate, Junos (JNCIA-Junos) [Link]	(Valid till Jan 2027)

PROJECTS

Simple Web Vulnerability Scanner Developed a Python-based CLI tool to scan web applications for common security flaws such as SQL Injection and Cross-Site Scripting (XSS), aligned with OWASP Top 10 standards. Automated the process of injecting payloads into URLs and HTML forms to identify SQLi and XSS vulnerabilities. Parsed web pages using BeautifulSoup to extract form fields and dynamically test user input points. Designed the tool to analyze HTTP responses for signs of successful payload reflection or error-based SQLi. Integrated command-line arguments for flexible usage, allowing users to specify target URLs and scan types. Technologies Incorporated: Python, Requests, BeautifulSoup, HTML, OWASP Top 10, CLI Tools. [GitHub Link].	Jul 2023 - Nov 2023
Simple Network Scanner Created a Python-based network scanner using ARP requests to identify active devices on a local network, providing IP and MAC details for basic security auditing. Enabled users to scan subnets and retrieve details such as IP and MAC addresses of connected devices. Implemented threading to perform scans efficiently, reducing execution time by 60%. Designed the tool to detect potential rogue devices, aiding basic network security management. Technologies Incorporated: Python, Scapy library, ARP Protocol, Threading. [GitHub Link].	Dec 2022 - Apr 2023

EXPERIENCE

Cybersecurity Analyst - Job Simulation Datacom Cybersecurity Team Forage Completed a simulation focused on protecting clients from cyber threats, mimicking real-world scenarios handled by Datacom's cybersecurity team. Investigated a simulated cyberattack, analyzing its impact and producing a detailed report with findings and actionable recommendations to enhance cybersecurity posture.	Sep 2024 – Nov 2024 Virtual

TECHNICAL SKILLS & INTERESTS

Languages: Python, C, Java, HTML5+CSS3, JavaScript Web Dev Tools: Nodejs, VS code, Tableau, Eclipse Cybersecurity Tools: Wireshark, SNORT, Metasploit, Nmap Cloud/Databases: AWS(EC2,S3,IAM,VPC), MySQL Relevant Coursework: Network Security, Ethical hacking, Data Structures & Algorithms, Operating Systems, Cybersecurity Fundamentals. Areas of Interest: Network Security, Security Analysis, Web Design and Development.
--

POSITIONS OF RESPONSIBILITIES

White Hat Hackers Club Member Conducted interactive workshops on ethical hacking and network security, fostering awareness and skill development among over 200 students. Organized Capture the Flag (CTF) events to promote hands-on cybersecurity skills.	KL University, Guntur
